

ICAO ENDORSED GOVERNMENT SAFETY INSPECTOR TRAINING

ICAO safety oversight assessments and audits have found that many States are experiencing difficulties with the implementation of ICAO oversight standards. As a result of these findings, a need was identified by ICAO to establish training programmes that would provide Government Safety Inspectors, on a worldwide basis with uniform skills and knowledge so that they may perform their jobs in a manner that is consistent with the Convention on International Civil Aviation and its Annexes.

ICAO endorsed eight training centres to implement GSI standardized training packages on an international basis. The Aviation Training Academy was endorsed as an approved training centre (providing facilities, administrative support and compliance management) while the South African Civil Aviation Authority was approved to present the ICAO endorsed GSI training (providing Instructors and learning material).

The Aviation Training Academy and the South African Civil Aviation Authority proudly presents:

1. ICAO Government Safety Inspector – **Operations**: Air Operator Certification Course – ICAO/GSI/OPS/CERT – (duration: 13 working days)
2. ICAO Government Safety Inspector – **Airworthiness**: Air Operator Certification Course – ICAO/GSI/AIR/CERT – (duration: 13 working days)
3. ICAO Government Safety Inspector – **Train-the-Trainer** Course (duration: 3 days)

The Aviation Training Academy and the South African Civil Aviation Authority serve and participate as permanent members of the ICAO GSI-endorsed training centre panel.

All courses are presented by highly competent, experienced and approved Instructors.
